Art Unit: 1742

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Andrew Wilford, attorney of record on February 14, 2006.

2. In the claims:

Claim 1, line 6, after "workpiece" insert --to form an uncoated region--.

Claim 5, line 9, after "workpiece" insert --to form an uncoated region--.

3. New Drawings are required in this application (i.e. as replacement sheets) because the Drawings as filed do not comply with 37 CFR 1.84(I). On the replacement sheets, every line, number, and letter in the Drawings must be durable, clean, black, sufficiently dense and dark, and uniformly thick and well-defined. The weight of all lines and letters must be heavy enough to permit adequate reproduction. See also MPEP section 714(II)(D) for additional information on submitting replacement sheets.

4. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest a process which includes coating opposite faces of a metal sheet or plate, stripping the coating from one region of the faces while leaving the coating on the faces in another region, followed by heating and hardening only the uncoated region while not significantly heating the coated region.

Art Unit: 1742

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. On the attached PTO-1449 form, the Germany '361 reference is crossed out because no copy of this reference was supplied by Applicant. U.S. Patent 6,524,404 (cited on the attached PTO-892 form) is believed to contain identical disclosure.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Wyszomierski whose telephone number is (571) 272-1252. The examiner can normally be reached on Monday thru Friday from 8:00 a.m. to 4:30 p.m. Eastern time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King, can be reached on (571) 272-1244. All patent application related correspondence transmitted by facsimile must be directed to the new central facsimile number, (571)-273-8300. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
